

# My Part in Preserving the Environment

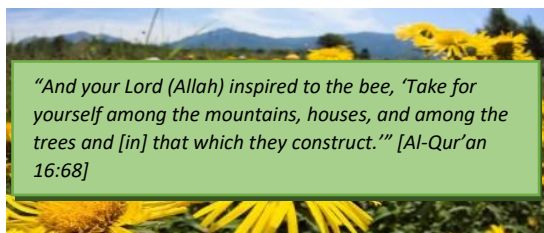

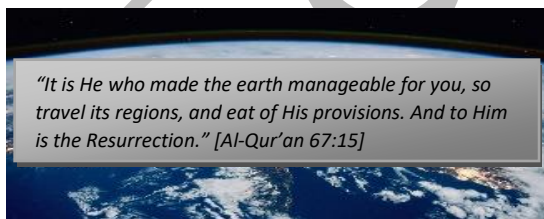

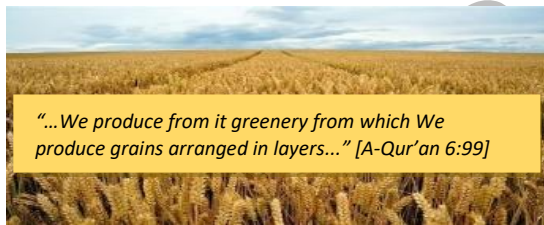

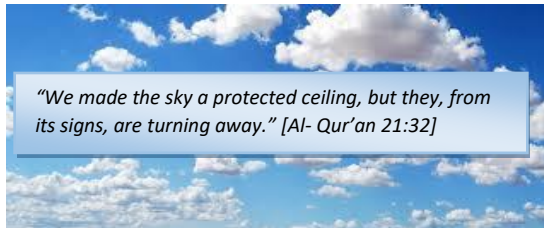

Age: 8-12 Years

Assalamu Alaikum Children!

Allah ﷻ has sent mankind as caretakers (Khalifahs) of this Earth. He has also made wonderful arrangements to make our life easy, but we seldom reflect on these gifts. Let us see how we can make our surroundings a better place and be grateful to Allah ﷻ.

We must make du'a when we start to fix our problems.

**Match the Greatest Gifts From Allah ﷻ to the Ways by Which We Can Fix Them**

I will practice effective waste management to help reduce landfills and restore the fertility of my Earth.

I will promote the growth of flowering plants to attract bees and help pollination to balance the ecosystem.

I will prevent ozone depletion by reducing the use of products that release harmful aerosols (ex: some air conditioners and refrigerators) to enjoy the protected roof of my Lord ﷻ.

I will support sustainable and safe farming by buying from local farmers.
